Logomark

Our logo is the face of random - the primary visual expression that we use to identify ourselves - meaning that we need to be careful to use it correctly and to do so consistently.

Primary Logomark

CLEAR SPACE

Give the smile room to stand out. Keep text, imagery and other graphic elements outside the protected area.

ONE RULE. BOTH LOGOS.

For each logo, measure its full visible height, H.
The minimum clear space on every side is $X = H \div 4$.

Include the coral rays and the registration mark within the measured logo bounds.

Scale the logo and its clear space together. Use more space when the layout allows.

$X = \frac{1}{4}$ OF LOGO HEIGHT

Proposed MIRO spacing standard

01 / PRIMARY FACE LOGO

The complete smile signature

Keep the face and teeth lettering as one piece.

02 / PRIMARY WORDMARK

The compact brand signature

Measure from the top of the rays to the lowest letter.

LOGO VARIATIONS

TWO CORE SIGNATURES

Use the complete smiling face or the MIRO wordmark. Keep their shapes, lettering and proportions consistent.

COLOUR AND PRODUCTION

Choose the version to suit the background and available printing process. Coral is an accent in the full-colour mark.

ONE-COLOUR USE

Use a single solid ink when only one colour is available. Reverse the complete mark to ivory on a dark field.

KEEP THE MASTER ART

Earlier face, eye and lettering experiments are development work, not additional primary logos in this system.

01 / FULL COLOUR

Deep teal + coral on ivory

02 / FULL COLOUR – REVERSED

Ivory + coral on deep teal

03 / ONE COLOUR

Deep teal; all accent shapes use the same ink

04 / ONE COLOUR – REVERSED

Ivory; all accent shapes reverse together

BACKGROUND USE

KEEP THE MARK CLEAR

Use the colour pairings shown here. A quiet, flat field keeps the face and teeth lettering easy to recognise.

LIGHT BRAND COLOURS

Use deep teal on ivory, turquoise, yellow and coral. Keep coral accents only where they remain clearly visible.

DARK BRAND COLOUR

Use ivory on deep teal. The coral accent can remain in the full-colour reverse version shown opposite.

ILLUSTRATION AND PHOTO

Place the logo in open space or on a solid brand-colour panel. Keep the page 02 clear-space area free.

PRIMARY COLOURS

THE RECOGNITION PALETTE

Deep teal, ivory and yellow provide the core structure. These values are sampled from your latest colour sheet.

BUILD A CLEAR HIERARCHY

Ivory gives the logo space. Deep teal carries the lettering. Yellow highlights Ginger Lemon and anchors the landscape.

KEEP COLOUR CONSISTENT

Use these HEX and RGB values for digital work. Set CMYK through the chosen print profile and approve a proof.

USE WITH THE WORLD

Turquoise and coral support these colours in the icons and landscape. See page 06 for their assigned roles.

DEEP TEAL

HEX #102E33

RGB 16 / 46 / 51

Logo, typography and outlines.
Use ivory for reversed lettering.

IVORY

HEX #F5EED9

RGB 245 / 238 / 217

Main light field and breathing space.
Use deep teal for essential text.

YELLOW

HEX #EBB554

RGB 235 / 181 / 84

Flavour plaque and landscape ground.
Pair with deep teal lettering.

THE COLOURS WORK TOGETHER

Primary colours establish the structure; supporting colours bring the scene to life.

SECONDARY COLOURS

THE ILLUSTRATED WORLD

Turquoise creates the sky and lower packaging field.
Coral adds warmth to the sun, berries, rays and stepped edges.

KEEP ACCENTS PURPOSEFUL

Let one colour lead each area.
Use coral in selected details and preserve the dark shapes of the existing icon pack.

KEEP THE PACK COHERENT

Retain the ivory upper field, turquoise lower field, yellow flavour plaque and deep teal illustration details.

PHOTOGRAPHY EXTENSION

Peach #FFD99B is reserved for mockup and photo settings. It supports the five-colour packaging palette.

TURQUOISE

HEX #50BCB8
RGB 80 / 188 / 184

Main illustrated field; sky and secondary panels.

CORAL

HEX #F3704F
RGB 243 / 112 / 79

Small accents; sun, rays, berries and stepped edges.

EXISTING PRODUCT SYMBOLS

EXISTING ILLUSTRATIVE SYMBOLS

PHOTO BACKDROP

#FFD99B / RGB 255 / 217 / 155

Digital values shown. Print conversions depend on the production profile.

TYPOGRAPHY

CUSTOM DISPLAY LETTERING

Drawn uppercase alphabet provides the expressive voice. Can use it for short statements and flavour-led display work.

PRESERVE ITS CHARACTER

Keeping the supplied letter shapes and natural irregularity. Scale proportionally and adjust spacing for each composition.

SUPPORT WITH READABLE TYPE

Barlow Condensed Bold handles headings and short labels. Manrope handles paragraphs, captions and product details.

01 / MIRO CUSTOM DISPLAY LETTERING

A B C D E F G
H I J K L M N
O P Q R S T U
V W X Y Z : , - .

DRAWN UPPERCASE

A–Z and the supplied punctuation.

BEST USED FOR

Short headlines and flavour names.

KEEP INTACT

Weight, silhouette and proportions.

SUPPORTING CHARACTERS

Use the text fonts for body copy.

02 / BARLOW CONDENSED BOLD

SPARKLING BOTANICAL WELLNESS

ABCDEFGHIJKLMNOPQRSTUVWXYZ 0123456789

Headings, navigation and concise product labels.

03 / MANROPE

A bright little break in your day.

ABCDEFGHIJKLMNOPQRSTUVWXYZ abcdefghijklmnopqrstuvwxyz

0123456789 & / () + - Body copy, captions and product information.

LOGO DEVELOPMENT

FOUR DIRECTIONS EXPLORED

These concepts helped shape MIRO's visual identity. Each explores a different balance of face, symbol and lettering.

WHY I MOVED FORWARD

The chosen face brings the name into the grin. The block wordmark offers a simpler signature for smaller spaces.

THE SELECTED SIGNATURES

A distinctive smile, expressive lettering and a shared voice across the can and brand world.

Using these two signatures in current work.

01 / SPLIT WORDMARK

The horizontal cut interrupts the letter shapes as the mark gets smaller. Separating face and name also loses the chosen logo's smiling lockup.

02 / RAY-CROWNED FACE

Rays, face and name create three stacked levels. This taller lockup needs more vertical space and leaves the smile less central to the identity.

03 / GEOMETRIC MASK

The rigid symmetry and condensed lettering feel more formal than the chosen grinning face. Fine internal details become less clear at small sizes.

04 / EYE-LED SIGNATURE

The eye keeps a recognisable part of the artwork, but removes the expressive face and grin. The wide lettering also departs from the chosen block wordmark.

PACKAGING / TWO CAN FORMATS

Original front and back artwork, shown in a comparison grid. Proportions are preserved; views are not at production scale.

01 / 250 mL SLIM - VERSION 3

FRONT

BACK

02 / 355 mL STANDARD - VERSION 2

FRONT

BACK

PRODUCTION GRID / DIMENSIONS SUPPLIED

Coral = bleed boundary. Deep teal = trim. Diagrams below show the full wrap, at a common display scale.

FULL WRAP / TRIM

250 mL SLIM / Ø 53 mm

Trim: 172 × 105 mm

With bleed: 178 × 111 mm

Bleed: 3 mm on every edge

178 mm incl. bleed

Adapt original panels to these wraps before print. The 250 mL nutrition panel still needs its serving size and values verified.

FULL WRAP / TRIM

355 mL / Ø 66 mm

Trim: 214 × 100 mm

With bleed: 220 × 106 mm

Bleed: 3 mm on every edge

220 mm incl. bleed

BUSINESS CARDS

FORMAT / 95 × 55 MM

Landscape card, front and back.
Add 3 mm bleed for printing.
Keep essential artwork at least
5 mm inside the trim edge.

FRONT / INFORMATION

Start the face 10 mm from the
left and 15 mm from the top.
Align the contact block beside
it with generous clear space.

TYPE / ACTUAL PRINT SIZE

Name / role: 12 pt / 8 pt.
Barlow Condensed Bold.
Details: 8 pt, Manrope Regular.
Keep contact copy left aligned.

BACK / BRAND SIGNATURE

Centre the ivory MIRO logo
on deep teal. Keep coral rays
and the original proportions.
Replace all bracketed details.

Turquoise guides show spacing only.
They are not part of the printed card.

01 / FRONT - CONTACT DETAILS

02 / BACK - CENTRED WORDMARK

PACKAGING IN USE

ONE COHERENT WORLD

Ivory and turquoise define the can. Deep teal carries the logo, while yellow and coral lift the illustrations.

FOUR FINISHED VIEWS

Hand-held product photograph.
Front and back on two cans.
Can beside the flat artwork.
Tall can with a cast shadow.

SHARED PHOTO BACKDROP

Warm peach: #FFD99B.
Lighting creates natural tonal variation across the scenes.
The tall-can background matches.

ARTWORK AND APPLICATION

Use the original PDF artwork as the production source.
These mockups demonstrate the finished visual direction.

01 / HAND-HELD

Condensation and close-up label detail.

02 / TWO-CAN VIEW

Front identity and information panel.

03 / CAN + FLAT ARTWORK

The label system shown together.

04 / TALL-CAN MOCKUP

Peach background and directional shadow.

POSTER APPLICATIONS

One campaign, five formats.
Keep the original composition intact and select the format that fits the setting.

01 / SOCIAL SQUARE

Bold graphic posts build recognition in the feed.

02 / STREET DISPLAY

A tall composition gives the can and MIRO name impact.

03 / TUBE BANNER

The wide format carries a short message across the journey.

04 / CAMPAIGN POST

Use the Zing artwork for flavour-led social moments.

01 / SOCIAL SQUARE

02 / OUTDOOR

04 / A LITTLE ZING

03 / LONDON TUBE

IN CONTEXT

STREET DISPLAY

SOCIAL MEDIA POSTS

03 / UNDERGROUND PLATFORM BANNER

SOCIAL MEDIA

Bring the bright side to everyday moments. Pair the graphic world of MIRO with warm, candid people and a clearly visible drink.

PROFILE

Use the MIRO wordmark as the avatar and a concise flavour-led bio. Keep the palette consistent.

CONTENT MIX

People and moments. Product and flavour. Bold campaign graphics. Behind-the-scenes stories.

VOICE

Warm, short and playful. Invite conversation with simple prompts and everyday occasions.

RHYTHM

Proposed rhythm: 3 feed posts, 2 Reels and regular Stories each week.

INSTAGRAM PROFILE

PEOPLE & MOMENTS

A FEED WITH FOUR REASONS TO FOLLOW

PEOPLE

Friends, first sips and everyday breaks.

BRAND WORLD

Cut-out graphics, logo and campaign art.

STORIES & REELS

FLAVOUR

Ginger, lemon and serving moments.

BEHIND THE CAN

Design details, making and community.

PROMO VIDEOS

DESIGN IN MOTION

The MIRO campaign brings the can, illustrated world and flavour cues into three-dimensional scenes.

A RECOGNISABLE WORLD

Carry the smiling face, turquoise label, yellow flavour panel and stepped forms through each scene.

PRODUCT AND ATMOSPHERE

Combine clear product views with condensation, warm lighting and geometric scenery from the packaging.

VERTICAL PRESENTATION

These selected stills will introduce the promo-video work in the brand book.

SELECTED PROMO-VIDEO FRAMES

Four selected stills from three MIRO video projects.

01 / BRAND WORLD

MIRO 2 / Scene frame

Temple props, a coral disc and floating particles.

02 / PRODUCT HERO

MIRO 1 / Product frame

The can and its packaging take centre stage.

03 / CITRUS REVEAL

MIRO 3 / Hero frame

A lemon backdrop, light and a stepped pedestal.

04 / FINAL MESSAGE

MIRO 3 / Closing frame

The product closes with the campaign statement.

A WHOLE WORLD IN EVERY CAN.

A consistent visual story: introduce the product, build its world, reveal the flavour, then close with a clear campaign message.

3 VIDEO PROJECTS / 4 SELECTED FRAMES / 1 DIGITAL PRODUCT

3D CAN VISUALISATION

Isolated render / Ginger Lemon

THE DIGITAL PRODUCT

The can visual connects the finished packaging with the three-dimensional campaign.
